Let's be more focused: one page of key NV info from Sylvia, Enrique, and others. In particular, a coherent focus on mining (and NV and NMA's views of the proposed financial reg), our Anaconda matter, and a short piece on drinking water systems/infra. I envision one well-written paragraph for each of these three. Any other really important NV stuff can follow, max one page.

We have some work to do on the Hawaii and Guam pages at 10 am...we can't have these disparate little bullets across five pieces of paper.

Ok - also we just heard Gov. Sandoval confirmed for WGA.

We will work with divisions on materials for NV.

We are not sending these three disparate items as written. We need to tie these together with the new audience in mind, with heavy editing. I'll try to make suggestions this morning.

Three documents – Red Hill backgrounder, Overview of water issues and the top few issues for Hawaii and Guam.
